What is a Riding Association?

The Riding Association is a group that is endorsed by the Northern Ontario Party to represent, support, endorse and promote the party.

The Association consist of its own Board members, constitution, candidate, volunteers and more. The Association must follow the parties main plan but may adjust with Party approval to better suit each riding as no two ridings have the same set of issues or changes. When you become a member, you also become a member with your Riding Association. You can run for positions in the Party at Executive board, Riding Association Board or even as a Candidate. Some members just wish to have updates and have their say. Other wish to volunteer or run to be more hands on.

The riding Association plays a very vital role in promoting the party before and after an election.

Northern Ontario Ridings are the focus of the party. We aim to endorse a candidate in each Northern riding.

We are focused on Northern issues that affect the longevity, well being, economy, manufacturing and future generations of Northern Ontario.

With all the issues that are being overlooked by the Legislature of Ontario the Northern Ontario Party feels that a different approach needs to be taken to ensure Northern Ontario is no longer treated as a colony.

Northern Ontario is unique and in no way can it be governed the same as Southern Ontario. The way of life varies even riding to riding with different issues and concerns. We feel that we need ensure Northern Ontario's voice is front and foremost. No compromising or negotiations.

Together we will make Northern Ontario Stronger then ever!

Did You Know?

Your vote does count.

In the 2014 election only 50.05% of eligible voters turned out to cast their vote.

Think if everyone did vote then the effects that those votes would have had. We ARE the party you have been waiting for.

**We are hearing from all ridings:
"Finally, a party I am able to vote for!"**

Time to have real people and not the bred, brainwashed and push over politician telling you what they are going to do without even consulting you.
